

North of England Ophthalmological Society

(Founded 1914)

PERCIVAL J HAY MEMORIAL LECTURES

(These lectures began about 1930, initially as the "January Lectures". They were subsequently named after Percival Hay, co-founder and longterm Honorary Secretary of the Society, as a mark of esteem and respect by his colleagues after his untimely death in 1943)

Year	Lecturer	Venue
1930	Prof van der Hoeve (Leiden)	
1931	H M Traquair	Manchester Sheffield Leeds
1932	Dr A Magitot (Paris)	
1933	W S Elder	Sheffield Leeds Liverpool
1934	Harold Gjessing (Drammen, Norway)	Manchester Sheffield York
1935	Charles Goulden	Leeds Manchester
1936	Prof Henning Rovine (Copenhagen)	Liverpool Leeds Sheffield
1937	Prof A J Ballantyne	Sheffield Manchester
1938	Prof Moritz von Rohr (Jena)	Sheffield
January Lectures lapsed during the war and later became known as the Percival J Hay Lectures		
1943	PERCIVAL J HAY DIED	
1947	Mr Affleck Greaves	
1949	Prof Hartman	

Year	Lecturer	Venue	Title
1950	Dr Ramon Castroviejo	Manchester Leeds	
1951	Mr Keith Lyle	Manchester	
1951	Mr A Dickson Wright	Leeds	
1952	Prof Hagedoorn		Detachment of the Retina and Allied Conditions
1952	Prof Hagedoorn		The Ophthalmologist's Approach to Medicine
1953	Mr Eugene Wolffe		New Thoughts on Past Researches
1953	Mr Eugene Wolffe		More Thoughts on Past Researches
1954	Dr Dekking	Leeds	Clinical Studies in Diabetic Retinopathy
1954	Dr Dekking	Manchester	The Aetiology of Chronic Uveitis
1955	Prof Sorsby	Manchester	Residual Problems in the Treatment of Ocular Infections
1955	Prof Sorsby	Leeds	Some Current Work on Hereditary Diseases of the Eye
1956	No record		
1957	Prof Bietti	Manchester	The Present State of the Use of Plastics in Eye Surgery
1957	Prof Bietti	Leeds	Medical Treatment of Suppression Phenomena in Squint
1958	Dr Cuppers	Leeds Sheffield	
1959	R Warwick		
1960	Mr James Hardman		The Effects of Vascular Deficiency on the Visual Pathway
1961	Prof J François	Leeds	Late Relapse of Congenital Ocular Toxoplasmosis
1962	Dr Dorothy Campbell	Leeds	Physiological Aspects of Retinitis Pigmentosa
1963	Prof Horst Muller (Frankfurt)	Harrogate	The Lens and its Complications

Year	Lecturer	Venue	Title
1964	No Lecture		
1965	Prof Worst (Groningen)	Newcastle	Surgery of Congenital Glaucoma
1966	Mr A C Leigh (London)	Bradford	Some Practical Aspects of Corneal Grafting
1967	Dr Rene Dufour (Lausanne)	Liverpool	Eale's Disease
1968	Prof G M Wilson (Glasgow)	Sheffield	Ophthalmic Complications of Thyrotoxicosis
1969	Prof R Witmer (Zurich)	Bradford	Differential Diagnosis of Retinoschisis - Biomicroscopic and Biochemical Aspects
1970	Mr John D Mustarde (Glasgow)	Newcastle	Trauma in the Orbital Region
1971	Prof D Cogan (Massachusetts)	Sheffield	Inborn Errors of metabolism
1972	Mr Redmond Smith		Modern Microsurgical Methods of Surgery
1973	Dr Douglas Gordon (London)	Sheffield	Ultrasonic Techniques
1974	Mr Kenneth Wybar (London)	Liverpool	Ocular Malignancy in Childhood
1975	Dr M Norn (Copenhagen)	Bradford	Vital Staining of the Cornea and Conjunctiva
1976	Mr Dermott Pierse (London)	Liverpool	The Influence of the Operating Microscope on Corneal Surgery
1977	Prof H Neubauer	Bradford	Glaucoma Surgery
1978	Mr John Scott (Cambridge)	Leeds	Management of Diabetic Retinopathy
1979	Dr van Lith (Rotterdam)	Newcastle	Electrophysiology
1980	Mr R K Blach (London)	Manchester	The Changing Pattern of Eye Disease as it Affects Clinical Practice

Year	Lecturer	Venue	Title
1981	Dr Guntram Kommerill (Freiburg)	Sheffield	Congenital Nystagmus
1982	Mr Michael Roper-Hall (Birmingham)	Liverpool	Microsurgical Development in Ocular Trauma
1983	Prof Klaus Heimann (Cologne)	Leeds	Treatment of Posterior Segment Injuries
1984	Prof Sir John Walton (Oxford)	Newcastle	The Role of the GMC
1985	Prof A van Balen (Amsterdam)	Sheffield	The Pathogenesis of Concomitant Squint
1986	Mr Michael Sanders (London)	Newcastle	The Differential Diagnosis of the Swollen Disc
1987	Dr A Galand (Liege)	Scarborough	Present and Future of Implantation in the Capsular Bag
(At this point the Hay Lecture changed from following a calendar year to an academic year)			
1987-88	Prof M Ferguson- Smith (Cambridge)	Sheffield	Implications of the New Genetics for Clinical Practice
1988-89	Prof Wallace Foulds, CBE (Glasgow)	Leeds	A Comparison of Conservative Treatment versus Enucleation in the Management of Intra-Ocular Melanoma
1989-90	Mr Roger Coakes (London)	Newcastle	Argon Laser Trabeculoplasty
1990-91	Mr John Scott (Cambridge)	Wigan	Complications Following the Use of Liquid Silicone in Vitreo-Retinal Surgery
1991-92	Dr Spencer Thornton (Nashville)	Scarborough	Management of Myopic Astigmatism
1992-93	Dr Lawrence Yannuzzi (New York)	Sunderland	Digital Indocyanine Green Angiography and Occult Choroidal Neovascularisation
1993-94	Prof William Lee (Glasgow)	Liverpool	The Pathology of Intraocular Tumours

Year	Lecturer	Venue	Title
1994-95	Prof Desmond Archer (Belfast)	Halifax	Ionising Radiation and the Retina: a Double-Edged Sword
1995-96	Dr Howard Gimbel (Calgary)	Manchester	Polar Expeditions: Phaco Sweep and Divide and Conquer Nucleofractis Techniques
1996-97	Prof. dr. A.F. Deutman (Nijmegen)	York	New Treatment Modalities in Macular Disease
1997-98	Mr Richard Wormald (London)	Bradford	The Epidemiology of Glaucoma
1998-99	Prof. David Sackett (Oxford)	Sheffield	Evidence Based Ophthalmology
1999-00	Dr Eugene Helveston (USA)	Liverpool	Management of Cranial Nerve Palsies
2000-01	Lecture cancelled		
2001-02	Prof John Burn (Newcastle)	Newcastle	The Future of Genetics
2002-03	Prof Fred Fitzke (London)	Liverpool	Advances in Macular Imaging Techniques
2003-04	Prof Ian Rennie (Sheffield)	Middlesbrough	Ocular Oncology
2004-05	Zdenek Gregor (London)	Manchester	Diabetic macular oedema: laser, surgery or steroids
2005-06	Prof David Taylor (London)	Leeds	The Optic Nerve and prenatal growth
